esco
Introduction

Our **esco**[®] story

Teaming Up to Create **Better Learning Environments**

In 2015, several architects, interior designers, educators, product designers and furniture manufacturers met together and joined forces to become what would later be known as the **esco**[®] team.

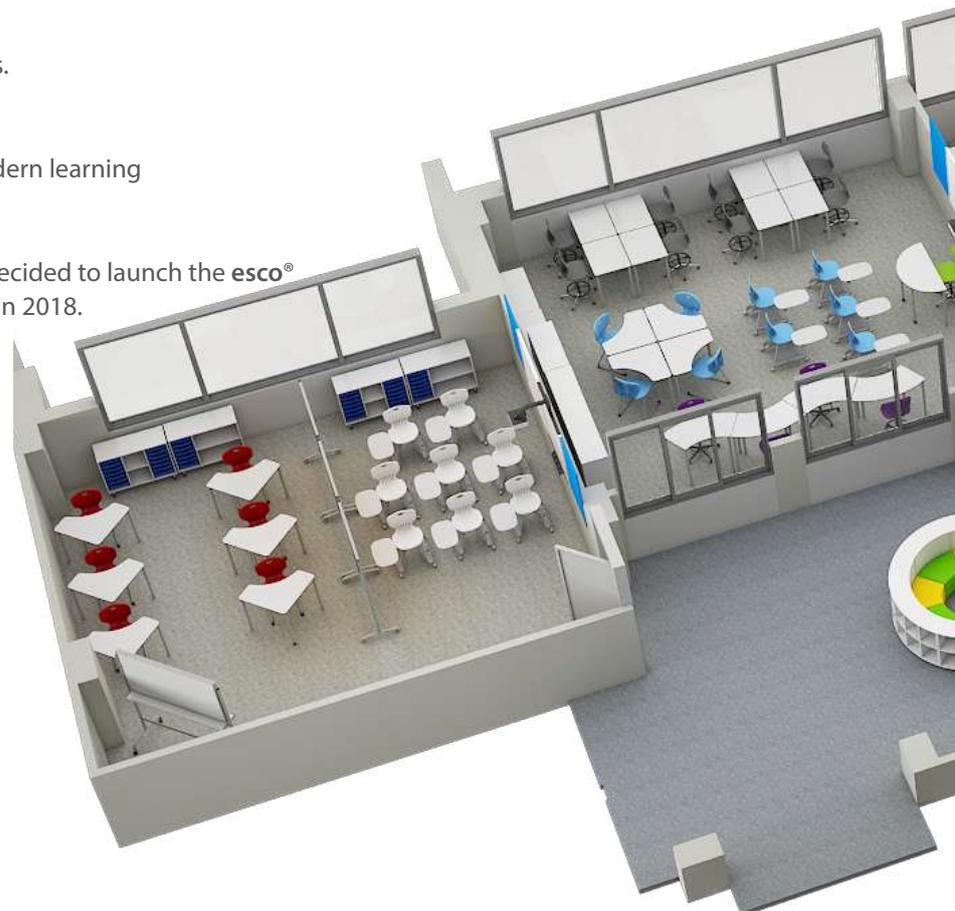

Our highly experienced school furniture experts have joined hands to analyse local customer needs and market trends to help us shape future-focused learning. Based on the insightful findings from a series of extensive interviews, school visits, observations, workshops and research, hand in hand with our endless efforts to ideate and prototype, the **esco**[®] brand was born.

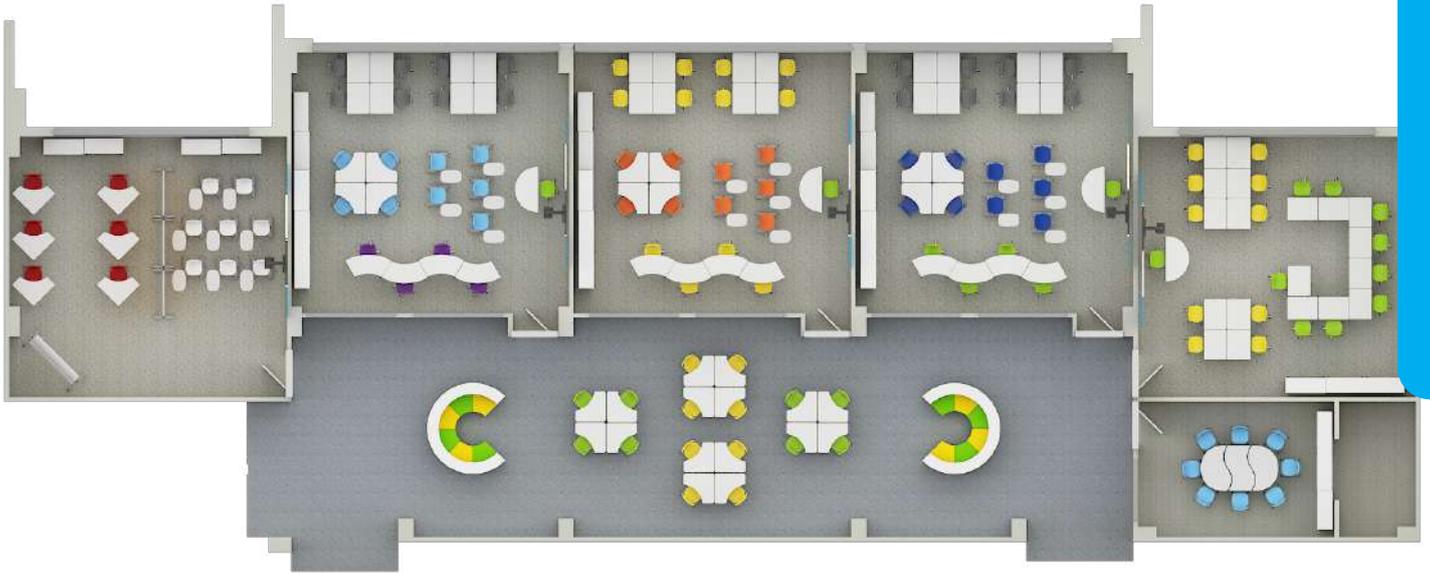

The **esco**[®] ten essential concepts:

1. Embody modern teaching and learning strategies.
2. Improve learning effectiveness.
3. Maximise the utilisation of educational buildings through extended learning beyond the classroom.
4. Provide learning environment solutions for every level of education and mixed-age learning environments.
5. Provide flexible solutions that adapt to various curriculums and learning needs.
6. Merge informal and formal learning spaces.
7. Enable active learning.
8. Stimulate face-to-face interactions.
9. Expand peer-to-peer and group learning options.
10. Foster individual and self-learning.

Our **mission** to create new solutions for better modern learning environments is no longer a dream.

After three years of close collaboration, the team decided to launch the **esco**[®] learning environment concept and product range in 2018.

Diversity

At esco®, we believe that diversity improves creativity and accelerates innovation. We value the unique background and experiences everyone brings. It gives us a better understanding and greater empathy and can fuel the best ideas; we are biased toward educational projects that are increasingly diverse and inclusive.

Service

Clients are at the heart of everything we do and every decision. We are committed to delivering personalised services to all our customers. We carefully listen to our customer feedback across all channels so that we may continue to develop and improve our products and services. Our dedicated teams go above and beyond expectations to ensure every customer is always happy.

Durability

esco® durability originates with the engineers and designers as they carefully select materials, design the construction of each item, and study the movements, habits, uses and misuses of students. Our products undergo strenuous testing to ensure your learning environments will look and feel new for years to come.

Sturdy light metal frame

Environment / Ecology

esco® environmentally friendly designs uphold our global responsibilities. As we attempt to minimise our ecological footprint, we prefer recyclable and sustainable materials in our selection process. Together with durable products and replaceable parts, we conserve resources and reduce waste, bettering our environmental impact.

We create for you

The finest textures and most durable materials come together to give you a beautiful learning environment that will last a lifetime.

Our products maximise sustainability and minimise maintenance efforts and costs with replaceable glides, shells and frames.

International Furniture Standards

BIFMA

SGS

BS EN 1729

We proudly serve you

Wherever you are located, we aim to be near you. Our global offices first opened in Australia, Hong Kong, Dubai and Germany and will soon be available worldwide to serve all our clients. For us, each client is important.

We design for you

International Standards BS EN1729

Modern ergonomically designed cantilever chairs absorb the bounce of active children, so teachers don't have to. The robust seat surface is easy to clean and resists scratches. The C-frame makes raising the chairs on desks and tables quick and safe. Glides provide stability and protect floors from abrasion.

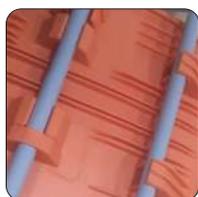

A convenient grip hole in the seatback makes carrying this lightweight chair effortless. The chair is available in 3 seat heights according to DIN EN 1729.

Maxima-Lecture

The **esco®** Lecture chair, for ultimate versatility, features a work surface, bookrack and casters for quick and easy transformations of learning spaces from lecture-style halls to active learning spaces. The rotating work surface slides to either side of the seat to comfortably accommodate both left-handed and right-handed students. A convenient grip hole in the seatback makes manoeuvring this chair even easier. The robust seat surface resists scratches and is easy to clean.

Smart C Storage

esco® Smart C series of shelves are the perfect choice for the creative learning environment, where creativity and organisation blossom together. Students and teachers love the designs they create as they wheel these shelving units into fun shapes, semi-circles and squiggles. On the other hand, teachers and staff love the high-quality materials, durable shelves, and large heavy-duty casters.

Formex System

esco® soft seating line uplifts every environment with vibrant colours and fun shapes. The lightweight, fully upholstered design makes moving these pieces quick and easy. Nine shapes snuggle into one another as you fit them together like puzzle pieces to create 3d masterpieces of art and form. Little reading corners, open spaces and reception areas all come to life as they welcome every passer-by for a bit of repose.

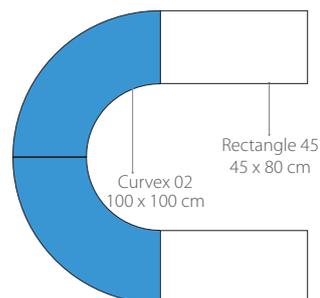

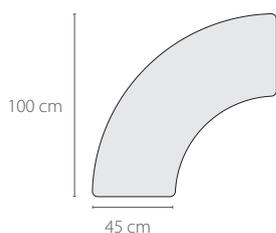

Double top-stitch strength and beauty
